

# Tip-Trap®

## Live Capture Mousetrap

### TIP-TRAP The Simple Do-It-Yourself Mousetrap

The TIP-TRAP was designed for residential and commercial use. This unit is safe, simple and effective because it is easy to bait, easy to set, and easy to release.

Place bait on the inside of the removable end cap. Place trap near a wall with trap door open. The smell of the bait will cascade from the unit, out the trap door and attract the mice. When mouse enters the TIP-TRAP they will cause the unit to tip, closing the mouse inside.

To release, simply position TIP-TRAP over desired area, pull back on closed trap door and let mouse slide out.

Worldwide Solutions In Pest Control Since 1924™

**The Tip-Traps are simple, safe, and sanitary.**

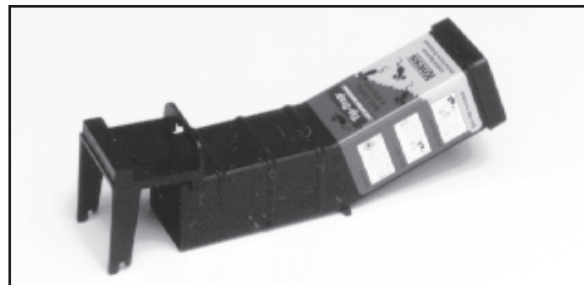

Made of polypropylene, resistant to stains and odors. Tip-Traps are easy to clean and can be reused or disposed of after mouse is caught.

**EASY TO BAIT**

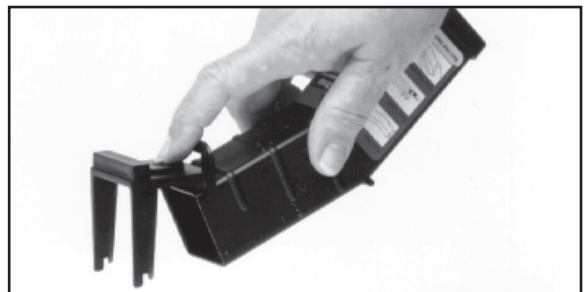

Simply place bait on inside of removable end cap.  
Place end cap firmly back on trap.  
Use peanut butter as bait (not included).

**EASY TO SET**

Gently extend hinged canopy straight out.  
Place trap on a flat surface next to wall near pest activity. When mouse goes for bait, trap tips, and door closes

**EASY TO RELEASE**

Hold trap as shown and lift door with index finger.  
Simple to release. No contact with rodent.
